MAJOR ACTIVITIES.

1. INTERNAL MENTORING

This is for supporting the students in any one of the subject of their study. Here mentoring is given to slow learners of selected subjects by the teachers in the subjects to motivate and bring them to the main stream. All the activities aim to strengthen the students and improve their confidence to face the university exams. Following methods of teaching learning were put into practice for conducting the same.

- Personal discussions with students to know about their issues, weakness and strengths.
- Motivational talks were conducted with students to make them aware of the possibilities and opportunities in the field of their study.
- Portions of the subjects that students feel difficult were individually dealt with .

- More exercises and question papers are provided to students to familiarize them with University question pattern.
- Exercises for learning as well as question papers are prepared and provided to them by the teachers based on previous university question pattern.
- Test papers of short time duration were conducted to assess the progress of students in subjects concerned.
