

M.Sc. Chemistry

Programme Outcome: M.Sc. Chemistry

Department of Chemistry	After Successful completion of two year degree program in Chemistry a student should be able to;
	<p>PO-1. To give students a comprehensive understanding of the principles of Chemistry</p> <p>PO-2. To gain the skill to design and carry out scientific experiments and interpret the data</p> <p>PO-3. To understand the interdisciplinary nature of Chemistry and to be aware of the emerging fields in Chemistry</p> <p>PO-4. Employ critical thinking and the scientific knowledge to design, carry out, record and analyze the result of Chemistry experiments</p> <p>PO-5. Create an awareness of the impact of physics on the society, and development outside the scientific community</p> <p>PO-6. To inculcate the scientific temperament in the students and outside the scientific community</p> <p>PO-7. To build a scientific temper and to learn the necessary skills to succeed in research or industrial field.</p> <p>PO-8. To be able to define and resolve new problems in Chemistry and participate in the future development of Chemistry</p>
